

METRO BILLBOARD 5

Metro Billboard 5 is an analog large format concept in the subway, perfectly suited for creative executions across multiple panels.

Each week, at least 1.1 million people travel through Stockholm's subway, and our stations cover 92% of these travelers. This means passengers board and/or alight at one of our 14 concept stations.

This product is available in groups of 2- or 5, offering fantastic opportunities for maximum impact and the perfect opportunity to strengthen your brand identity.
